ATLANTIC AVENUE TUNNEL

The long absentee from the path of progress has at last appeared upon the scene, and with a long overdue view to the future. The Atlantic Avenue Tunnel is a remarkable structure, and its construction has been a great event in the history of the city. The tunnel is of great importance to the commerce of the city, and its completion will make a great change in the transportation facilities of the place. The tunnel is a long and narrow structure, and it is built of iron and brick. The tunnel is of great importance to the commerce of the city, and its completion will make a great change in the transportation facilities of the place.
